## 50 U.S. DESTROYERS BEING TRADING TO BRITAIN

### Cash Advances On 1941 Wheat Crop Foreseen Tuesday

#### President Roosevelt Announces Transfer In Trade For Bases

#### NAZI BOMBERS ARE REPULSED IN BIG ATTACKS

#### Anniversary Of War In Marked By Spectacular Air Battle

LONDON, Sept. 3.—Two German attempts to smash through London's air defenses failed today against the combined fire of British fighter planes and anti-aircraft guns.

The second attempt kept London under attack from 2:30 p.m. to 4 p.m. (EST) to 4 a.m. M.S.T.

British and German planes fought viciously over the Thames estuary, and the German planes failed in an attack on the city.

The first anniversary of the conflict began with a series of the most violent air battles.

Offers said about 300 raiders were beaten off by British fighters and ground defenses.

An anti-aircraft gun and German planes had been repulsed in the London air battle.

#### No Action By Congress Necessary To Put Agreement Into Effect—Arrangement Completed In Notes Sept. 2

WASHINGTON, Sept. 3.—The United States Navy Department announced today that the first eight of the 50 destroyers loaned to Britain are at Boston and should be ready for delivery by next Friday. They will be sent to Canadian ports with their present crews, it was said. There they will be taken over by British seamen.

The others will be ready "when requested," a navy announcement said, and they will be "in an operating condition."

It was announced that Admiral Harold R. Stark, chief of naval operations, had fulfilled legal requirements for disposing of fighting equipment by certifying that release of the vessels to Britain, and the acquisition of defense bases, would strengthen rather than impair U.S. defenses.

WASHINGTON, Sept. 3.—President Roosevelt notified Congress today of an agreement between the United States and Great Britain under which the American government will lease naval and air bases in British possessions in the North and South Atlantic and transfer 50 over-age destroyers to Britain.

The United States will acquire naval and air bases in Newfoundland and in the islands of Bermuda, the Bahamas, Jamaica, St. Lucia, Trinidad, and Antigua, and in British Guiana.

"The right to bases in Newfoundland and Bermuda are gifts—generously given and gladly received," the President said in a special message.

**Acquired In Exchange For Warships**

"The other bases mentioned have been acquired in exchange for 50 of our over-age destroyers."

The President enclosed an opinion by Attorney General Robert Jackson dated Aug. 27, 1940, "regarding my authority to consummate this arrangement."

Officials said no action by Congress would be necessary to put the agreement into effect.

The Senate was not in session today, so the message went only to the House of Representatives, meeting to debate the Senate-approved conscription bill.

Mr. Roosevelt said the arrangement with Britain was effected in an exchange of notes between Lord Lothian, the British ambassador, and State Secretary Cordell Hull, Sept. 2.

**Far-Reaching Act Of Preparation**

It "is not inconsistent in any sense with our status of peace," he declared.

"Still less is it a threat against any nation," he continued. "It is an epochal and far-reaching act of preparation for continental defense in the face of grave danger."

"Preparation for defense is an inalienable prerogative of a sovereign state. Under present circumstances this exercise of sovereign right is essential to the maintenance of our peace and safety. This is the most important action in the reinforcement of our national defense that has been taken since the Louisiana purchase. Then, as now, considerations of safety from overseas attack were fundamental."

"The value to the western hemisphere of these outposts of security 'as beyond calculation,'" the President stated.

**Need Has Long Been Recognized**

"Their need has long been recognized by our country," he said, "and especially by those primarily charged with the duty of charting and organizing our own naval and military defense."

"They are essential to the protection of the Panama Canal, Central America, the northern portion of South America, the Antilles, Canada, Mexico, and our own eastern and gulf seaboard. Their consequent importance in hemisphere defense is obvious. For these reasons I have taken advantage of the present opportunity to acquire them."

Headlines Tank Brigade

COL. F. F. WORTHINGTON, who has been chosen to lead Canada's first armored tank brigade, will eventually number some 200 tanks.

The United States state department made this known today by making public an exchange of correspondence between State Secretary Cordell Hull and Lord Lothian, British ambassador.

The announcement was made public after the White House announced an arrangement for the acquisition of air and naval base sites from Great Britain and the transfer of 50 over-age destroyers.

Lord Lothian informed the U. S. government that any conjecture about the destruction of the fleet would "be sent overseas for defense of other parts of the empire."

In a letter Mr. Hull wrote, "More likely to concern the German fleet or what is left of it than the British fleet."

The Prime Minister of Great Britain is reported to have stated that the British fleet would "be sent overseas for defense of other parts of the empire."

### Britain Never To Surrender Or Sink Fleet

#### Definite Assurance Of British Intentions Is Given United States

WASHINGTON, Sept. 3.—Great Britain has given the United States definite assurance of its intentions "never to surrender or sink the British fleet in the event of the waters surrounding the British Isles becoming untenable for His Majesty's ships."

The United States state department made this known today by making public an exchange of correspondence between State Secretary Cordell Hull and Lord Lothian, British ambassador.

The announcement was made public after the White House announced an arrangement for the acquisition of air and naval base sites from Great Britain and the transfer of 50 over-age destroyers.

Lord Lothian informed the U. S. government that any conjecture about the destruction of the fleet would "be sent overseas for defense of other parts of the empire."

### Money Release Kills Threat To West Business

#### Payment Of Substantial Portion Of Federal Guaranteed Price Likely As Result Of Discussions At Ottawa

By R. T. RICHARDSON  
Edmonton Bulletin Ottawa Bureau

OTTAWA, Sept. 3.—Release of a substantial portion of the Federal guaranteed price on this year's wheat crop was foreseen today as discussions of the problem of financing the wheat industry went into the second day.

Discussions appeared to have centered upon methods of paying an advance to farmers, forced by circumstances to store considerable volume of grain on their farms, and the question of how much to pay. The vital issue whether or not a payment will be made, has been settled in the affirmative, from all accounts.

Release of wheat money this fall will remove the threat of severe financial stringency in the west, it was believed. The money was already a charge against the federal treasury, which is committed to paying 70 cents a bushel, basis No. 1 at Fort William or Vancouver for all wheat grown in western Canada. This means about 50 cents to the farmer.

Following a conference Monday between a large wheat delegation led by Premier John Bracken of Manitoba, with the wheat committee of the cabinet, the cabinet committee was in private session since lunch with prospects that it will report in the fall cabinet later in the day.

The decision may be held before a final decision. The exact amount to be loaned to advance and the method by which it will be loaned have been a matter of speculation. The wheat delegation did not ask for a specific figure, relying on the government to make a loan for the advance, which might be a loan for the advance, which might be a loan for the advance.

## Great Britain Gets 50 U.S. Destroyers From United States

Continued from Page One

Menace of our peace and safety. This is the most important factor in the reinforcement of our national defense that has been taken since the Lausanne pact. It is now, considerations of safety from overseas attack were first considered. "The value to the western hemisphere of these outputs of security is beyond calculation. It has long been recognized by our statesmen and explorers that the primary charged with the duty of charting and organizing our own naval and military defense. They are essential to the protection of the Panama Canal, Central America, the northern portion of South America, the Antilles, Canada, Mexico and our own eastern and Gulf seaboard. Their consequent importance in hemispheric defense is obvious. For these reasons, I have taken advantage of the present opportunity to acquire them."

### READY TO LEAVE

More than 100 of the United States' 121 over-age destroyers have been recommended and a naval authority is set on Aug. 20 that at least 50 would be made ready to leave for Great Britain within a week. They would need only to take on fuel, stores and ammunition. Most of them are understood to be at Philadelphia.

All the destroyers have four-inch guns and 21-inch torpedoes, the same armament as the British navy uses. They are all above the 10-year average.

Lord Lothian in his note said that the United States' fleet would be leased for 90 years, free from all rent and charges other than such compensation as he had previously agreed on to be paid by the United States.

Lothian said the United States could be made ready to leave for the eastern side of the Bahamas, the southern coast of the western coast of St. Lucia, the west coast of Trinidad in the Gulf of Paria, the Gulf of Antigua and in British Guiana within 30 miles of Georgetown.

"In exchange for naval units, the United States government will furnish men and material which the United States government will furnish to His Majesty's government."

### 120-TON TYPE

Secretary Hull, replying under the same date, declared that the action of the declarations above quoted, the government of the United States will immediately transfer to His Majesty's government 50 United States navy destroyers, generally referred to as the 1200-ton type.

Attorney General Robert Jackson in his opinion informed the president that the proposed arrangement may be concluded as an effective agreement, effective without awaiting ratification.

"It is thus a presidential power to transfer title and possession of the proposed consignment of units, certification of appropriate staff officers."

Lothian held that dispatch of so-called "mugshot boats" now under construction for the U.S. navy to the British navy would constitute a violation of the statute of the United States which would not be true with respect to the over-age destroyers, since they "were clearly not built, armed or equipped with any such intention to enter the service of a belligerent."

A reference by Jackson to "the reasonable provision of the neutrality act as to destroyers" was taken to mean that British agents would have to negotiate the boats across the Atlantic.

The statement by the attorney-general that the president had power to make the trade without congressional action, became involved in controversy, Senator Gerald Nye (Rep.-North Dakota), on outside of his isolationist, said the president's action "indicates that our leadership is already using dictatorial methods and ignoring laws and treaties in the name of an emergency."

### PUBLIC APPROVAL

On the other hand, Senator Alben Barkley (Dem. Kentucky), said:

"For once I've got some good news for you," he said, "a former office spokesman at the beginning of a news conference."

"Successful conclusion of the agreement was greeted with the 'Success' in the House of Representatives. The president's message sent Congress today advising of his decision to exchange 50 United States destroyers with the British navy for the defense of the British Empire south in North and Central America."

Canadian government officials, working in close cooperation with the United States navy, are being advised in advance of the outcome of negotiations over the destroyers and defense base.

It is believed the negotiations will be completed in the next few days. The Canadian defense policy, Mr. King would make no other comment.

Chief of President Roosevelt's message to Congress announcing the agreement in the House of Representatives, the Canadian defense policy, Mr. King would make no other comment.

## SARCEE CAMP HOODS 3,000 MILITARY MEN

### Alberta Battalions Of New "Civilian" Army Start Training Period

CALGARY, Sept. 3.—In the same line where men of the old C.R.A. lived and trained in the days of the Great War, Alberta battalions of Canada's new "civilian" army are under canvas today.

They came to camp Sunday, marching to the blare of bagpipes and drums. Some by troop train. Others left expensive sleds at the boundaries of the camp and marched in with their kits.

They were men from offices and warehouses, from homes and ranches. Trappers from the far north "banded" in with catkins from the south.

There were lawyers and professional hockey players, civil engineers and laborers, but they all wore the khaki dress of Canada's new "civilian" army.

"Bill" and "Jack" and "Tom" to one another until the first camp meeting. The earlier recruits were in full swing and the civilian soldiers are entering into the spirit of the thing.

## Chinese Henchman Of Japanese Shot Dead In Shanghai

SHANGHAI, Sept. 3.—Lin Han-shi, a Chinese henchman of the Japanese, was shot and killed by a Chinese gun man today in a restaurant in the French Concession.

The victim was shot while he was eating. The assassin was not seen.

Lin was expected to assume the post of a Japanese henchman in the Japanese-occupied Chinese regime at Nanjing.

## MERCHANT SHIP LOSS IS BELOW LATE AVERAGE

### Air Offence On Shipping Is Much Less Than Has Been Imagined

LONDON, Sept. 3.—The admiralty announced today that merchant ship losses, 13 of them British, were destroyed by "enemy action" during the week ending Aug. 25-26. They totalled 25,500 tons.

This total compared with an average weekly loss of 35,000 tons since the start of the war, the admiralty said, but was below the average of 85,000 tons since May, when Germany declared war on shipping.

German losses totalled approximately 32,000 tons and Italian losses 27,000 tons since the outbreak of the war, the admiralty added.

"Enemy" claims to have sunk 18,000 tons of shipping during the week under review were decided to be "considerably over twice the actual recorded losses."

In a review of the first year of war at sea, a naval spokesman said enough action had been done to prove the German navy was not a "paper" navy.

There is no doubt of evidence to show that Hitler has abandoned the idea of a "paper" navy.

There is no doubt of evidence to show that Hitler has abandoned the idea of a "paper" navy.

## Escaped Prisoner From Calgary Jail Is Still At Large

CALGARY, Sept. 3.—George Edward Mellings, who escaped from Calgary city police jail last week, kept his freedom during the week-end despite a rigorous police search.

Calgary city police were still on the watch for him although it was believed he had escaped south of the city. A car believed to have been stolen by Mellings is still missing. Calgary Mounted Police are keeping up their patrol in search of the escaped prisoner.

## 25 ARE KILLED IN CRASH BIG U.S. AIRLINER

### Worst Commercial Air Disaster In History Of Country

LEWISBURG, Pa., Sept. 3.—The crash of a Pan American Western airliner in a field near Lewisville, carrying 35 persons to instant death, brought pain today to a public holiday in the United States Civil Aeronautics Board and a possible Senate probe.

At least 25 persons were killed in the crash, which occurred on the 21st anniversary of the 21 passengers and four crew members were killed when a 25-passenger plane crashed into a field near Lewisville, carrying 35 persons to instant death, brought pain today to a public holiday in the United States Civil Aeronautics Board and a possible Senate probe.

## EXPENDITURES

**ON WAR REACH**  
**\$550,000,000**

OTTAWA, Sept. 3.—Some idea of the cost to finance war industrial expansion was given Canadians by Munitions Minister Howe who announced that expenditures and commitments by his department in the past 11 months already amount to some \$550,000,000.

A plant construction program undertaken by the government accounts for \$45,000,000 for erection or enlargement of more than 100 plants.

Some of the plants which in one case will give employment to 15,000 men and to 7,000 in another, already are in operation. Purchases by the department now have run through the \$50,000,000 mark. Mr. Howe said. Purchases on British account bring about \$50,000,000 and cost of the construction plant makes up the balance of the total expenditure.

An accurate estimate of the annual value of the output of the plants has not yet been made, Mr. Howe said.

**Just In Case**

LONDON—Hundreds of buildings have been built in London and other cities in case of war, for use as food and shelter by people who might be left homeless by air attack.

**GRAIN INSPECTIONS**

WINNEPEG, Sept. 5.—Grain inspectors here today reported that the first 1,696, 341 bushels of wheat from the 1932-33 crop had been inspected. The first 1,696, 341 bushels of wheat from the 1932-33 crop had been inspected. The first 1,696, 341 bushels of wheat from the 1932-33 crop had been inspected.

## SCHOOL TERM IS STARTED ON TUESDAY

Continued from Page Nine

and stay up at the last position or with the leaders for the whole course of the race, you have no trouble ending as a prize winner. Likewise, if at the beginning of this school term you start off strong and maintain that steady pace throughout the year, you need have no doubt about the result of your school work when examination time comes around." Mr. Sheppard advised.

"At this time, when instruction and teaching have been disrupted in many European countries, studies here should feel a deep conviction about the true worth of an education in a democratic way in a democratic Canada," Mr. Sheppard continued. "Education in this light

is something our young folk should never shirk, but should accept as a privilege duty-paid for by their forefathers."

To the hardheaded upper-class students, school opening Tuesday was probably just the time as it has been for as long back as they can remember. But to several hundred young folk, just passed their sixth birthday, it meant the beginning of a new adventure, and as such had many an interesting, if not exciting incident in store for them.

Most teachers and principals started the new term off in the right manner, according to the traditional school axiom, by declaring a "half holiday" so that officially their young proteges could gather up "the hundred and one" items in the way of books, scribbles, etc. that will be essential for proper work throughout the year. As a result, downtown stores experienced the usual heavy school opening rush, and had extra help on hand to cope with the demand for school supplies.

This year the old song about "we're all in our places" more so

than ever before, during the past several years, did not literally hold true, particularly in the case of high school students. Many of the older boys have "joined the colors" and instead of being back with the gang are now scattered over Canada and England with units of Canadian armed forces.

### GUEST CHILDREN

Also making their first appearance in the Edmonton and district schools, but not all as beginners in the primary grades, were about 88 British "guest" children, who have arrived here during the past six weeks. These evicted children from war-torn districts of the Old Country are being offered all the facilities of Edmonton schools so that they may not suffer a loss in education as a result of their evacuation.

Edmonton's public schools, however, since June 30, have been "dotted up" in anticipation of school opening. The old broken windows, the numerous defective lights, and the little holes in the plaster on the wall, all have been carefully fixed by the building repair men under the supervision of Daniel Mazurek.

Floors, desks, and woodwork greeted students from beneath a new coat of paint and polish. Two latest additions to the city's school buildings, the new Wagon High school, and Glenora public school, were not ready for opening Tuesday. Furnishing of the Glenora school is expected to start soon, and official opening of the school for classes is scheduled for early October. With construction work still in progress at the Wagon school, it is not expected by school board officials that classes will commence in the new building until the middle of October at the earliest.

### Bomb Explodes

BELFAST, Northern Ireland, Sept. 3.—A small, crudely fashioned bomb exploded in a crowded public air raid shelter in the centre of Belfast Monday night, sending out thick clouds of smoke but causing no injuries.

Fifteen thousand barrels of oil, loaded daily for 11 days from the "Merry Susan" in the port of Belfast before it could be capped, in 1940.

## CITY COMPANY STAFF ENJOYS LAKE PICNIC

### Special Train Takes G.W. Employees To Gull Resort On Holiday

Excursion to Edmonton Bulletin. LACONNE, Sept. 3.—Traveling in a special C.P.R. train of seven coaches, employees of the Great West Garment Company of Edmonton arrived at Gull Lake at 11:15 Monday to hold one of the biggest picnics ever staged at the lake resort.

Accompanied by C. D. Jace, general manager of the company, 450 men, women and children made the trip, and an orchestra supplied music for the entertainment. Both on board the train and at the lake, Scotch pipers and highland dancers

also added to the day's pleasures. Favoured by a blustery wind, in addition, hundreds went in for a swim at Aspen Beach and a full program of sports was afterwards held on the beach. In the evening, just before the special train pulled out for Edmonton, two huge bonfires were set fire on the beach and flared "bonfires" and "bonfires" were enjoyed by the big crowd. On the "back" of the bonfires, "bonfires" were enjoyed by the big crowd. On the "back" of the bonfires, "bonfires" were enjoyed by the big crowd.

## Russia Manoeuvres On Polish Border

MOSCOW, Sept. 3.—Big scale troop manoeuvres continued in the western special military district of Russia bordering on Poland, it was disclosed today.

Marshal S. M. Budenny, reporting on tactical exercises of the command and staff of the Odessa military district, declared that lessons learned in the war with Finland and from observation of the European conflict had been applied.

## CITY POLICE REPORT QUIET HOLIDAY TIME

City police experienced a holiday weekend that was almost perfect in itself.

Only the most petty thefts had been complained of and not a single serious accident was reported on city streets.

A man named John Thistle, of Clover Bar, suffered a slight injury to his right leg when knocked down by an auto driven by J. McDonald, 887 106th avenue, in front of the Belmont Service Station, Port Trail, at 1 a.m. Tuesday.

A bruised left arm and side was suffered by Alvin Scott, 12, 2538 107th avenue, when knocked from his bike at 107th and 97th streets, Saturday evening.

Steven Ayle, was the driver of the car that struck young Scott, who was not seriously hurt.

**New Peril**  
LONDON, Sept. 3.—The air ministry cautioned civilians last night against unexploded cannon shells from German planes, apparently a new peril similar to time-bombs.

STORE HOURS 9:00 a.m. to 6:00 p.m. Daily Including Wednesday, September 4th. To Call EATON'S Dial 9-1-2
